

Markus Rehberg

## Das Rechtfertigungsprinzip

Eine Vertragstheorie

Classical contract theory focuses solely on the contracting parties at the tiny moment of conclusion. In reality, however, contract law organizes a highly sophisticated decision-making process, involving many participants at various times, pursuing a single aim: Each contracting party shall be legally bound only as far as is necessary to serve his or her own goals (principle of justification).

**Markus Rehberg** Geboren 1971; LL.M.-Abschluss an der University of Cambridge; Promotion zum Dr. iur an der Humboldt-Universität zu Berlin; Habilitation an der Ludwig-Maximilians-Universität München; Professor für Bürgerliches Recht, Deutsches und Internationales Wirtschaftsrecht, Rechtstheorie und Rechtsökonomik an der Universität Rostock.
