

Sebastian Mock

Die Heilung fehlerhafter Rechtsgeschäfte

German Civil Law provides under certain conditions the possibility to cure void legal transactions. However, there is not a single general but only a number of specific provisions in this regard. Sebastian Mock analyses these specific provisions and develops a general structure for the curing of void legal transactions.

Sebastian Mock Geboren 1976; Studium der Rechtswissenschaft in Jena, Montpellier, Hamburg und der New York University School of Law; 2007 Promotion; 2013 Habilitation; derzeit Lehrstuhlvertreter an der Universität Konstanz.
