

# Love and Justice

Consonance or Dissonance? Claremont Studies in the Philosophy of Religion,  
Conference 2016 Edited by Ingolf U. Dalferth and Trevor W. Kimball

[Love and Justice]

Published in English.

The ideas of love and justice have received a lot of attention within theology, philosophy, psychology, sociology, and neuroscience in recent years. In theology, the theological virtues of faith, hope, and love have become a widely discussed topic again. In philosophy, psychology and neuroscience research into the emotions has led to a renewed interest in the many kinds and forms of love. And in moral philosophy, sociology, and political science questions of justice have been a central issue of debate for decades. But many views are controversial, and important questions remain unanswered. In this volume the authors focus on issues that take the relations between the two topics into account. The contributions move from basic questions about the relationships between love and justice through specific, but central problems of a just practice of love to social and political issues of the practice of justice in today's society
