

# Tradition und Innovation im Recht

Edited by Alexander Bruns

Technical innovations and developments in modern society naturally affect how law and legislation are shaped. The contributions by Japanese and German experts contained in this volume show that the law is by no means paralysed by tradition, but rather frequently opens itself to innovation, without automatically completely conceding traditional conceptions of justice.

**Alexander Bruns** Geboren 1966; 1996 Promotion; 2002 Habilitation; Direktor des Instituts für deutsches und ausländisches Zivilprozessrecht der Albert-Ludwigs-Universität Freiburg i.Br.
