

Johann Braun

Deduktion und Invention

Gesetzesauslegung im Widerstreit von Gehorsamskunst, Rechtsgefühl und Wahrheitssuche

[Deduction and Invention. The Battle of Abiding by the Law, Maintaining a Sense of Justice, and the Quest for Truth.]

Published in German.

What does academic theory demand when it comes to interpreting the law? And what approach must the legal interpreter take to near satisfying these? Johann Braun conducts the debate on the basis of critical rationalism, and in so doing provides legal methodology with an unconventional contribution.

Johann Braun Geboren 1946; 1979 Promotion; 1982 Habilitation; 1983 Professor in Trier; 1988–2011 Professor für Zivilprozeßrecht, Bürgerliches Recht und Rechtsphilosophie in Passau.

2016. XV, 302 pages.
