Der Insolvenzplan

Von seiner dogmatischen Deutung als Vertrag und seiner Fortentwicklung in eine Bestätigungsinsolvenz

[The Insolvency Plan. Its Dogmatic Interpretation as a Contract and the Development of a Pre-voted Insolvency Procedure.]

Published in German.

It is in times of crisis that many people avail themselves of insolvency law; nevertheless these people eschew a company's reorganization based on an insolvency plan. Stephan Madaus develops a new type of planning procedure which as a pre-voted insolvency would make it possible to reorganize a company in a short and predictable insolvency procedure.
