

Philipp S. Fischinger

Die Beschränkung der Erbenhaftung in der Insolvenz

[The Limitation of the Heir's Liability for the Debts of the Estate in Insolvency.]

Published in German.

Philipp S. Fischinger studies the partially conflicting relationship between bankruptcy law on the one hand and the right of an heir to limit his liability for the debts of the estate on the other hand in cases in which an insolvency proceeding is pending concerning his own or the estate of the deceased. Fischinger favors a legislative change to the German Insolvency Code.

Philipp S. Fischinger ist Professor für Bürgerliches Recht, Arbeitsrecht, Handels- und Wirtschaftsrecht sowie Sportrecht an der Universität Mannheim.
