

Patrick Sanger

Die ptolemaische Organisationsform politeuma

Ein Herrschaftsinstrument zugunsten judischer und anderer hellenischer Gemeinschaften

[Politeuma – A Ptolemaic Form of Organisation. An Instrument of Power Benefitting Jewish and Other Hellenistic Communities.]

Published in German.

How did the Ptolemies secure their rule when internal and external crises threatened their kingdom from the end of the third century BC onwards? To find out, Patrick Sanger examines the strategies of the *politeuma* – a type of association as yet only identified as having existed on Ptolemaic territory which is linked to Jewish and other communities bearing foreign ethnic designations. The author reveals a particular aspect of Ptolemaic social, legal and administrative policy, and sheds light on a historical situation in which Jews both supported and profited from a political regime.

Patrick Sanger Geboren 1979; 1997–2004 Studium der Alten Geschichte und Altertumskunde; 2009 Promotion; 2017 Habilitation; seit 2018 Professor fur Alte Geschichte (unter besonderer Berucksichtigung der Hilfswissenschaften) an der Universitat Munster.
