Einführung in die Rechtsphilosophie

Der Gedanke des Rechts

[An Introduction to the Philosophy of Law. The Concept of the Law. 3rd edition.]

Published in German.

Johann Braun shows how it is still possible to ask sensible questions about justice. He presents a structural doctrine of legal thinking which includes socialistic, rationalistic and institutional legal thought. For the 3rd edition, the entire text was carefully reviewed and revised, supplemented and updated in numerous places.

Parallel to the third edition, we are publishing a »virtual companion volume« containing a selection of original texts. These online texts are freely accessible and illustrate the sections concerned in the printed introduction.

Johann Braun Geboren 1946; 1979 Promotion; 1982 Habilitation; 1983 Professor in Trier; 1988–2011 Professor für Zivilprozeßrecht, Bürgerliches Recht und Rechtsphilosophie in Passau.
