

German and Nordic Perspectives on Company Law and Capital Markets Law

Ed. by Holger Fleischer, Jesper Lau Hansen and Wolf-Georg Ringe

[Deutsche und nordische Perspektiven zum Gesellschaftsrecht und Kapitalmarktrecht.]

Published in English.

The volume traces back to a symposium held at the Max Planck Institute for Comparative and International Private Law in Hamburg and offers a broad comparative analysis of company and capital markets law in Germany and the Nordic states. It details the special elements of company law in Scandinavia that developed amid the twin forces of innovative experimentation and the drive for harmonization, contrasting them with the distinctive features of German company law. Further contributions deal with the newly created entrepreneur company in Germany and Denmark, as well as the role of shareholders and boards in public companies. It also contains detailed analyses of the law of company groups in Germany and the Nordic states. The volume is further rounded out with contributions on capital markets law and takeover law, including issues involving acting in concert, ownership disclosure and the interaction between the legislator and the takeover panel in Sweden.
