Geschichte der Rechts- und Staatsphilosophie

Antike und Mittelalter

[A History of the Philosophy of Law and of the State. Antiquity and the Middle Ages. 2nd, revised and expanded edition.]

Published in German.

This survey of the history of the philosophy of law and of the state in antiquity and the middle ages deals with major ideas and figures and – based on the source material – includes the intellectual and historical-political surroundings of these ideas and figures at the same time. In doing so, the book imparts a knowledge of history and philosophy and also stimulates the reader to think about law and the political system.
