Hans-Georg Gadamer was one of the most outstanding philosophers of the 20th century. In his main work, *Truth and Method*, published in 1960, he raised hermeneutics to an essential component of contemporary philosophy. Jean Grondin engaged in intensive research in a number of archives and interviewed Hans-Georg Gadamer and some of his contemporaries before writing this scholarly biography.

Jean Grondin Geboren 1955; Studium in Montréal, Heidelberg und Tübingen; Professor für Philosophie an der Universität Montréal.
