

Impossible Time

Past and Future in the Philosophy of Religion

Ed. by Marius Timmann Mjaaland, Ulrik Houliind Rasmussen and Philipp Stoellger

[Unmögliche Zeit. Vergangenheit und Zukunft in der Religionsphilosophie.]

Published in English.

It is impossible *not* to discuss the question of time, at least for the philosophy of religion. However, to discuss the question of time is equally impossible, as the various perspectives presented in this volume show. Then what is time? Time *is* not, and yet everything is within time. Time *is*, but neither substance nor pure form. Being a dimension of all Being, not even God could or would withdraw from time. The authors of the contributions to this volume discuss the unavoidability of time and its paradoxes, not the least with the purpose of *giving time*, as a recurring topic for the philosophy of religion.
