## Instrumentenverbund als Rechtsproblem am Beispiel effizienter Energienutzung

[An Instrument Mix as a Legal Problem Considering the Example of Efficient Energy Use.]

Published in German.

In pursuing a certain regulatory objective, a multitude of instruments are often used parallel to one another. Using the regulations to increase energy efficiency as an example, Sven Jesse studies the development and organization of such an instrument mix as well as the demands made by European and constitutional law on the combined use of instruments.
