Judikative Rechtserzeugung

Theorie, Dogmatik und Methodik der Wirkungen von Präjudizien

[Judicial Law-Making. Theory, Doctrine and Methodology of the Effects of Precedents.]

Published in German.

Courts contribute to the interpretation and development of the law. Within the German legal system, however, there is no doctrine of binding precedent. Against this background, Mehrdad Payandeh develops a constitutional approach to the effects of judicial precedents and analyzes judicial law-making as a function of the third branch within the German constitutional order.

Mehrdad Payandeh ist Inhaber des Lehrstuhls für Internationales Recht, Europarecht und Öffentliches Recht an der Bucerius Law School Hamburg.
