

Ulrich Eisenberg / Ralf Kölbel

Kriminologie

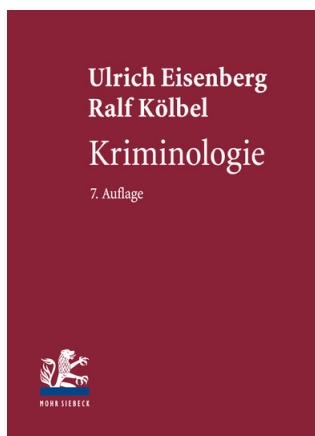

[Criminology. A textbook. 7th edition.]

Published in German.

Criminology is the empirical subject which addresses deviant and criminal behaviour, its social definition as well as its manifestations and control. This book, a classic of German-language criminology literature, offers a comprehensive and up-to-date overview of the discipline. The thoroughly reworked version appraises the latest in national and international empirical research. The diversity of criminological theories and a rich seam of findings are clearly presented and discussed. As a standard work of reference, it appeals to a wide readership of practitioners, educators and scholars interested in the social realities of crime and criminal justice. At the same time, it also stands as an empirically-informed, critical contribution to the field of criminal law as a whole.

Ulrich Eisenberg Geboren 1939; 1976 bis zur Emeritierung 2007 Professor für Strafrecht, Kriminologie, Jugendstrafrecht und Strafvollzug an der Freien Universität Berlin.

Ralf Kölbel Geboren 1968; Professor für Strafrecht und Kriminologie an der Ludwig-Maximilians-Universität München.

7th completely revised edition; 2017.
XXIV, 1528 pages.
