Krisen

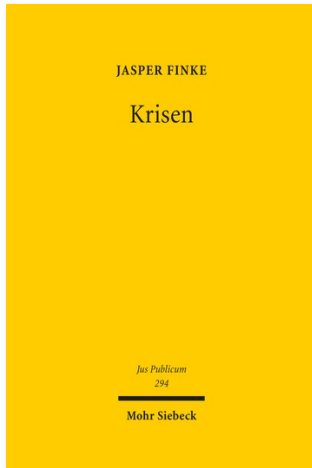

Ein Erklärungsversuch dynamischer Rechtsentwicklungen in Krisenzeiten

[Crises. An Attempt to Explain Dynamic Legal Developments in Times of Crisis.]

Published in German.

Conceptualizing crises as part of the normality-exception dichotomy turns a blind eye to the long-term effects of crises, especially the impact they have on the meaning of existing legislation. Jasper Finke reveals why changing interpretations in response to a crisis are to be understood as a process that is inherent to law and not something that is imposed on law.
