

Iris Böschen

## Makroökonomik und Wirtschaftspolitik

Ein Lehrbuch zur Entwicklung nach der Weltwirtschaftskrise 2009

[Macroeconomics and Economic Policy. A Textbook on Developments Following the 2009 Global Financial Crisis.]

Published in German.

Iris Boeschen's textbook provides students with an application-orientated and up-to-date overview of the fundamentals of macroeconomics and economic policy. The didactic and textual aim is to enable students to make entrepreneurial decisions against the backdrop of economic-political and expectable economic developments. With this in mind, the author begins by setting out economic growth and business climate as topics essential for understanding current media reports. The principles of the theory of money and monetary policy will be mentioned as well as social security systems. The textbook conveys how macroeconomics and economic policy relate to one another, and is particularly suitable for students of business and public administration, economic psychology, and event management as well as engineering management.

**Iris Böschen** Geboren 1969; Gesellin des Tischlerhandwerks; Diplom für Volkswirtschaftslehre; 2006 Promotion im Fach Wirtschaftspolitik; 2009 erste Professur für Volkswirtschaftslehre; seit 2017 Professorin für Wirtschaftswissenschaften an der Hochschule des Bundes für öffentliche Verwaltung in Brühl.
