

Marktwirtschaft schreiben

Das Wirtschaftsressort der Frankfurter Allgemeinen Zeitung 1949 bis 1992
-wird nun über Brill verkauft-

[Writing the Market Economy.]

Published in German.

The impact the *Frankfurter Allgemeine Zeitung's* business and economics reporting has had on German history has so far barely been researched. Maximilian Kutzner illuminates here the place this major national broadsheet occupies in the country's tapestry of politics, economics, scholarship and public life. Archive material made exclusively available to the author gives an insider view of FAZ business desk operations and the forming of editorial policy. Journalists were party to confidences that reached the top echelons of politics and the business community, where conflicts had the potential to threaten the paper's continued existence. But the interplay between newsmakers, politicians, business leaders and academics also led to profound and lasting changes that were to shape federal Germany's contemporary history.
