Tätigkeitsverhältnisse im Spannungsfeld von Gesellschafts-, Dienstvertrags- und Arbeitsrecht

[Working within Enterprises. Employment Relationships in the Conflict between Partnership, Corporate, Service Contract and Employment Law. By Rüdiger Krause.]

Published in German.

On the common ground to be found between partnership, corporate and employment law, Rüdiger Krause develops solutions which meet the requirements of both these fields. He begins by dealing with those forms of a contract which can connect the corporate and exchange relationships, such as for example the service and employment contract. He then focuses on the criteria to be used for a concrete delimitation of the legal forms and examines individual problem areas which can overlap and influence each other. In this context he provides a detailed analysis of areas such as job, salary, liability, prohibition of competition and termination of the employment.
