

Reinhold Zippelius

## Staat und Kirche

Eine Geschichte von der Antike bis zur Gegenwart

[The State and the Church. A History from Antiquity to the Present. 2nd Revised Edition.]

Published in German.

The historical power of religious ideas is never more visible than it is in the interaction between religion and political systems. In this way religious ideas affected deeply the distribution of political power between the pope and the emperor in the Middle Ages. On the other hand, various political interests and powers affect the preservation and the decline, the enforcement and the content of religions. The traditional cults in the Roman Empire would have declined less rapidly if they had not been given a push by the secular arm of Theodosius. It was also on the authority of Henry VIII, King of England, that the Anglican Church came into being. Reinhold Zippelius gives an account of two thousand years of cooperation and conflict among the central powers in politics and the church, using documents from these times wherever possible.

**Reinhold Zippelius** Geboren 1928; 1953 Promotion; 1961 Habilitation; emeritierter Professor für Rechtsphilosophie und Öffentliches Recht an der Universität Erlangen-Nürnberg und Mitglied der Akademie der Wissenschaften zu Mainz.

2nd, newly revised edition; 2009.  
XII, 191 pages.
