

The Future of New Testament Textual Scholarship

From H. C. Hoskier to the Editio Critica Maior and Beyond

Ed. by Garrick V. Allen

[Die Zukunft neutestamentlicher Textforschung. Von H. C. Hoskier zur Editio Critica Maior und darüber hinaus.]

Published in English.

This volume fundamentally re-examines textual approaches to the New Testament and its manuscripts in the age of digital editing and media. Using the eccentric work of Herman Charles Hoskier as a shared foundation for analysis, contributors examine the intellectual history of New Testament textual scholarship and the production of critical editions, identify many avenues for further research, and discuss the methods and protocols for producing the most recent set of editions of the New Testament: the *Editio Critica Maior*. Instead of comprising the minute refinement of a basically acceptable text, textual scholarship on the New Testament is a vibrant field that impinges upon New Testament Studies in unexpected and unacknowledged ways.
