

The Reformation of Philosophy

The Philosophical Legacy of the Reformation Reconsidered Edited by Marius Timmann Mjaaland

[Die Reformation der Philosophie. Das philosophische Erbe der Reformation neu bedenken.]

Published in English.

Did the Reformation introduce a new approach to philosophy? How did this historical caesura influence key thinkers in the history of modern philosophy up to the twenty-first century?

This volume discusses the Reformation as a *philosophical* event in the early modern era – and its astonishing impact on key issues in philosophy until today. The contributors analyse central patterns of Luther's thinking from a philosophical angle and identify essential traits from the Reformation in modern philosophy, for example, in Kant, Hegel, Schelling, Kierkegaard, and Nietzsche. The volume also includes texts on contemporary phenomenology, aesthetics, political philosophy, and pragmatism, where Paul, Luther, Protestantism, and Marxism have experienced a revival. Finally, authors also discuss Jewish and Islamic approaches to philosophy in the wake of the Reformation.
