

Søren Gosvig Olesen

Transzendente Geschichte

Aus d. Dänischen übers. v. Monika Wesemann

[Transcendental History.]

Published in German.

Transcendental History defends the claim that historicity is an essential prerequisite for human knowledge, and hence that human beings are always historical beings in a strict sense. This theory is vital to the present direction of European philosophy. By explaining this theory, and by tracing its development from the days of Kant and Hegel to those of Derrida and Agamben in a tale of how transcendental and speculative philosophy gradually gave way to historical thinking in the shape of phenomenology, hermeneutics and deconstruction, Søren Gosvig Olesen not only enriches our understanding of the history of philosophy but also contributes to epistemology, the philosophy of history, and philosophical anthropology. Seeking a broader audience, *Transcendental History* addresses itself to all those interested in the questions and controversies motivating contemporary European philosophy and its critical engagement with its past.

Søren Gosvig Olesen Geboren 1956; Studium der Philosophie in Toulouse und Paris; 1988 Habilitation an der Universität Nizza; 1996-99 Forscher an der Königlichen Bibliothek Kopenhagen; seit 1999 Dozent der Philosophie an der Universität Kopenhagen; Gastprofessor bzw. Gastforscher an den Universitäten Turin, Dijon, Freiburg und Warwick.
