

Martin A. Stadler

Weiser und Wesir

Studien zu Vorkommen, Rolle und Wesen des Gottes Thot im ägyptischen Totenbuch

[Wise Man and Vizier. Studies on the Occurrences, Role and Nature of the God Thoth in the Egyptian Book of the Dead.]

Published in German.

In Egyptology, monographs on deities are an important genre, since they collect crucial information on individual deities. Yet those studies – particularly on more significant deities – are also difficult to write, because an analysis can be buried under the vast evidence if it is just catalogued. A god as prominent as Thoth, who is generally and simplistically characterized as a scribal god and a god of wisdom, has not yet been studied in detail. Martin A. Stadler explores new methodologies in combining Thoth with an exegesis of a substantial part of the Egyptian Book of the Dead. He aims at explaining the relevant spells of this central religious corpus as coherent compositions. This is the first approach of this nature, in which an author points out the non-European logic in Egyptian religious thinking. The specific position of the Book of the Dead within Egyptian written sources also allows it to study Thoth throughout Egyptian history.

Martin A. Stadler Geboren 1973; Studium der Ägyptologie, Klassischen Archäologie und Geschichte an der Universität Würzburg, der Ägyptologie an der University of Oxford, dort Graduierung zum Master of Studies in Oriental Studies (Egyptology); 2001 MA; 2002 Promotion; 2002 Wiss. Assistent am Lehrstuhl für Ägyptologie der Universität Würzburg; seit 2006 Akademischer Rat; 2007 Habilitation, Erteilung der Lehrbefugnis im Fach Ägyptologie und Ernennung zum Privatdozenten.
