

Alexander Schnell

Wirklichkeitsbilder

[Images of Reality.]

Published in German.

In this work, Alexander Schnell expounds the role played by the formation and conferral of sense in our understanding of »reality« and »matters of fact«. Starting from the phenomenological standpoint of consciousness analysis, he tries to show how the power of imagination in particular serves as a formative function for reality. Picking up on important phenomenological concepts – such as sense, the grounding of knowledge, the unconscious, reality, truth, time, space, the human, subjectivity, transcendence – the author deals with these anew. The volume thereby also contributes to the reinvigorated realism-idealism debate of recent years in which phenomenology – more than a hundred years after its inception – has yet again been awarded a key role.

Alexander Schnell Geboren 1971; Studium der Ingenieurwissenschaften und Philosophie in Paris; 1998–2002 wissenschaftlicher Assistent an der Universität Paris X; 2002–07 Associate Professor an der Universität Poitiers; 2007–16 Associate Professor an der Universität Paris-Sorbonne; 2014–16 Head of Department für Philosophie an der Universität Paris Sorbonne Abu Dhabi; seit 2016 Professor für theoretische Philosophie und Phänomenologie an der Bergischen Universität Wuppertal; Direktor des Instituts für Transzendentalphilosophie und Phänomenologie (ITP).
