Wozu ist die Diakonie fähig?

Theologische Deutungen gegenwärtiger Herausforderungen

[What is Diaconia Capable of? Theological Interpretations of Contemporary Challenges.]

Published in German.

Christian social practice's tasks are currently mostly being discussed from economic, legal and political points of view. In this volume, Christian Albrecht seeks to place theological arguments firmly alongside these – whether they be interpretations of the principles of theological tradition or theologically-construed insights of contemporary experience. The more decisively Christian social practice engages with increasingly complex economic, legal, political, social, cultural and communicative challenges, the greater the need for it to recognise, shape and make feasible these welfare deeds done in Christianity's name.

Christian Albrecht Geboren 1961; Professor für Praktische Theologie an der Evangelisch-Theologischen Fakultät der Ludwig-Maximilians-Universität München.
