Your Open Access Publication

Non-Binding Sample Quotation for an Open Access Monograph

Mohr Siebeck offers you the option of publishing in Open Access, for which a publication fee will be charged. However, fees can vary considerably because each case involves a variety of factors, such as the number of pages, retail price of the print version, kind of binding, how the book has been produced, and the length of the embargo.

The following is a non-binding example of such a calculation:

**Immediate Open Access (no embargo),
420 printed pages, sewn brochure, retail price €79.00**

Total (net) €7120,23

If you wish to publish in Open Access, please contact the relevant editor to obtain a quotation tailored to your needs.

Dr. Katharina Gutekunst
