

# utb Jüdische Studien

Edited by René Bloch, Alfred Bodenheimer, Frederek Musall, and Mirjam Zadoff

*Jewish Studies* is a series of volumes on central topics of the discipline. It aims to cover the entire range of Jewish Studies. This includes monographs on ancient and medieval text-cultures (Hellenistic Judaism, Qumran, Talmud, Midrash, and biblical exegesis) and the various epochs of Jewish history. In addition, volumes on cultural-historical subjects such as Jewish art, philosophy and literature as well as specific areas of more recent history such as Zionism and Holocaust studies are also included. *Jewish Studies* is designed to introduce and deepen knowledge of the discipline, providing students and teachers as well as interested readers from neighbouring fields (history, religious studies, theology, literature etc.) with a thematic overview.

Stökl Ben Ezra, Daniel

## Qumran

### Die Texte vom Toten Meer und das antike Judentum

Volume 4681  
2016. XIII, 462 pages.

ISBN 9783825246815  
paper 34,99 €

Hardly an archaeological discovery has so revolutionized our understanding of ancient Judaism and the emergence of the Hebrew Bible as the Dead Sea Scrolls. In this textbook, Daniel Stökl Ben Ezra discusses clearly the most important theories on the Qumran scrolls in their archaeological context. Who were the owners of the scrolls, how did they live and think? What can we learn from the scrolls about the Hebrew Bible's text, editorial and canon history? Particular attention is paid to the meaning of the scrolls for the understanding of ancient Judaism beyond the circle of their once owners. Qumran scroll themes such as interpretation, Halacha, prayers, mysticism, and eschatology are systematically brought into discussion with other ancient Judaism sources, including Hellenistic and rabbinical texts, the New Testament, and archaeology.

Talabardon, Susanne

## Chassidismus

Volume 4676  
2016. VIII, 284 pages.

ISBN 9783825246761  
paper 25,99 €

The Hasidism that has its historical roots in 18th century Eastern Europe is one of today's most influential Jewish communities. The diversity, adaptability and simultaneous inertia that characterises this orthodox branch of Judaism astounds some observers. Susanne Talabardon traces the emergence, development and effect of the currently most important Jewish strand, which, particularly in the USA and Israel, shapes the profile of (very) traditional Judaism. She presents the current state of research on the genesis of the Kabbalah inspired movement, which is so multifarious that it is sometimes difficult to recognise unifying elements in the complex diversity.

Langer, Gerhard

## Midrasch

Volume 4675  
2016. XI, 368 pages.

ISBN 9783825246754  
paper 27,99 €

Midrash is Jewish scholars' study of the Bible and its result, the eponymous literary genre. But Midrash is also teaching, mediation and preaching. Gerhard Langer examines the phenomenon of Midrash from its beginnings in inner-biblical interpretation up to the present. He thereby reveals the ways and means used by the scholars to make the writings accessible and keep them alive. The author presents the major Midrash works and highlights important topics with many examples. When it comes to the Jewish religion, Midrash is about nothing less than recognizing the ever-valid Word of God, conveying its constantly to be reinterpreted message, and by so doing become close to him.

Liss, Hanna

## Jüdische Bibelauslegung

Volume 4  
2020. XXVII, 538 pages.

ISBN 9783825251352  
paper 40,00 €

In this textbook, Hanna Liss presents Jewish biblical interpretation from the Middle Ages to the twenty-first century. Alongside the exposition of historical and geo-cultural contexts, individual Bible commentators are introduced and a number of examples of interpretation offered that reveal the unique interweaving of the religious and academic cultures of Judaism, Christianity, and Islam.
